## PERSONAL STATEMENT

Self-managed developer who likes to investigate and accept challenges and whose work experience is focused mostly on developing side front0end and Back-end. I would like to be one of key developers in a strong proactive "continuous delivery"-aware development team working on a project that will require the team to make long-term architectural decisions and master new frameworks.

## TECHNICAL SKILLS

### MOST EXPERIENCED WITH:

- Skills: SDLC, QA, C#, JavaScript/jQuery, SQL, HTML, Bootstrap, TDD, REST APIs, Entity Framework, .NET Framework and Core, ASP.NET MVC, Three-Tier Architecture, NuGet, using Google and Stack Overflow.
- Tools: Visual Studio, Postman, Asana, Jira, SVN.

### FAMILIAR WITH:

- Skills: Sql procedures, CSS, Entity framework, LINQ, Asp.net core, using Google and Stack Overflow.
- Tools: Microsoft SQL server Management Studio, visual studio code.

## CERTIFICATION

- IC Agile Certified (Agile Methodology)
